

CELEBRATING COMMONALITIES AND DIFFERENCES

GOALS

- To get to know each other
- To identify our commonalities
- To validate unique characteristics of each individual in the group

MATERIALS NEEDED

For each group of 4 to 6 people: one circle diagram outlined on a piece of flipchart paper (see diagram below), assorted markers.

METHOD

Divide the participants into small groups and distribute a circle diagram to each group.

Instruct each group to fill in the inner circle with 8 characteristics that they all have in common.

Have each individual fill in the outer section with 5 characteristics that are unique to themselves.

Upon completion, post the flipcharts to share with the group.
